

Database Access Auditing: Data Privacy, Regulatory Compliance, Usage Management

What Customers Are Saying About Ambeo For Data Privacy and Regulatory Compliance

Ambeo customers have generated immediate successes in data privacy and regulatory compliance by using Ambeo products and solutions. Here are just some examples of the immediate results achieved by our customers, some of the leading pharmaceutical, healthcare, telecommunications, financial, insurance, and retail companies in the world.

Get in the Know with Ambeo

Data Privacy

"With recent passage of regulations regarding customer privacy, we needed to show how sensitive customer information is being used. Ambeo Usage Tracker™... **helps us to ensure that access to customer data is within acceptable limits.**"

*Dan Mertz, MIS Director
Omega Financial Corporation*

Database Access Auditing

"The most important feature was the ability to **know who** [was using our data]... **and what our customers were doing...**"

*Craig Owen, Informatics Manager of the Department of Medical Informatics
University of Texas M.D. Anderson Cancer Center*

Regulatory Compliance

"For the first time, **we are able to track who is using the data** and the number and type of queries that are being submitted by time of day."

"It is an important vehicle for **HIPAA compliance.**"

*Steve Barlow, Manager, Enterprise Data Warehouse Department
Intermountain Health Care*

Security of Sensitive Data

"Ambeo has allowed us to monitor and manage users who were accessing customer credit card and password information from the data warehouse. ...**knowing who is accessing what [data] and when is a benefit to any company that stores sensitive data.**"

Data Usage Knowledge

"Ambeo was chosen for its **ability to provide data usage information** that allows our company to be proactive..."

"I can tell most **anything one wants to know about the use, performance and activity of our system** enterprise-wide."

About Ambeo

Since 1997, Ambeo's solutions have provided database access auditing for data privacy, regulatory compliance, and usage management to Fortune 1000 companies with some of the largest database environments in the world. Ambeo's True Zero Overhead™ solutions provide information about how users actually interact with data, the crucial element of any IT compliance strategy. Compliance, Security and IT management now have the visibility required to confirm regulatory compliance, protect data privacy, reduce risk of unauthorized data access, proactively manage data environments, and maximize database investments.

Ambeo's Database Access Auditing Solutions are available for Oracle, Teradata, DB2/UDB, Informix, Sybase ASE, Sybase IQ and Microsoft SQL Server database environments.
